Located in a UPS Store

Cost to Play \$15 per Entry

\$12 goes to the Season Long Total Prize Fund.
\$2 dedicated to Monthly Prizes.
Multiple Entries are allowed.

Entry Sheet Accessibility

With the establishment of the HR Derby website the Entry Sheet will be available online about the time hitters report to spring training.

'Starter Sheets' will no longer be mailed.

Object of The Derby

Prior to the start of the season a list of Hitters is provided. This list is divided into Groups from which participants select the designated number of Hitters from within each Group. The number of Groups and the number of Hitters within each Group may differ from season to season.

Selections are limited to the Hitters on the list.
No write ins are allowed.

Entries that have more than the designated number of Hitters selected within any Group(s) will have the last name listed deleted.

Entries that have fewer than the designated number of hitters selected will be assigned the least selected Hitter from the offending Group(s).

Object of the Game

The object of the game is to pick the players who will hit the most total HRs during the MLB Regular Season Schedule. If additional end of season games are required to determine play-off teams HRs hit during those games will count.

In the case of entries having an equal number of HRs, the official At Bats per HR ratio will be used to break the tie. The fewer at bats the better. The tie-breaker will be expressed as a ratio carried out to three decimal places (EXAMPLE: 5,678 AB divided by 432 HR equals 13.144 ratio.) The lower the ratio the better. If prize winning positions are involved in a tie at end of season, HRs and Ratio (out to 3 decimals) being equal, the dollar amounts for the positions involved will be totaled and divided equally between all tied entries.

Standing Reports and Pick Sheets

The extra fees for these items have been eliminated as they will now be available online to everybody.

Filling Out Your Entry

All entries must be filled in completely including mailing address information. Print clearly or use a mailing label. If submitting multiple entries it is suggested that you fill out one entry and make additional copies. The Entry# box is to be used when there are multiple entries with one name. Do not use that box for entries from different members of the same family. If only one entry is submitted do not put a 1 in the box as it then implies additional entries should be looked for. Telephone numbers are requested in case there is a problem distributing prize winnings.

Entry #

Information will not be sold for any purpose.

Season End Total Prizes

If prize winning positions are tied including ratio, the dollars will be totaled and divided equally among the involved positions. A list of Prizes will be available after all entries have been entered.

Season End Special Prizes

'The Babe' Prize for the lowest AB per HR Ratio is awarded at the end of the season. 'The Boob' goes to the Entry with the highest Ratio.

Monthly Prizes

Starting in 2021 (Season 34) Monthly Prizes will be awarded. These prizes are funded by \$2 dedicated from the Entry Fee. The number and amounts of prizes will differ from season to season as they will be determined by the number of entries.

Replacement Hitters

With the establishment of the HR Derby website there will finally be a way for a Derby Entry to replace a hitter on their list. The hitter does not need to be injured, demoted, or suspended. You can get rid of him for any reason.

The hitter can be replaced at any time by emailing his name and the name of the replacement player, which must be from within the same Group. The change will take place on the 1st day of the month following when the request is made. EXAMPLE: Email on June 28 that you want to make a change which will take effect on July 1. There is no charge for this transaction. No one is required to make a change. **This move can only be made once per season. Use it carefully!**

www.hr-derby.com

The plan is to post stats for the 15th and the last day of each month. But delays are possible!
